SKILLS

Languages: HTML, CSS, JavaScript, Node.js, Python, React js
Tools/Platforms: MongoDB, Git & GitHub, Postman, NPM, Vercel
Soft Skills: Problem-Solving, Team Player, Time Management, Adaptability

PROJECTS

- SyncGaze Employee Login Dashboard** | *HTML, CSS, JavaScript, React.js, Dashboard UI* May' 25
- Developed a responsive employee login and dashboard system with authentication, login-state management, personalized employee information, and streamlined navigation.
 - Created interactive dashboard sections for employee profiles, attendance, notifications, and quick-access features, providing a centralized and intuitive user experience.
 - Built a visually appealing interface with reusable React.js components, form validation, and responsive layouts for smooth accessibility across devices..
- SyncGaze Mail Platform** | *React.js, HTML, CSS, JavaScript, REST API* Apr' 25
- Developed a centralized mail platform for composing, sending, receiving, replying to, and managing employee emails through a responsive interface.
 - Created organized sections for inbox, sent items, drafts, search, notifications, and email categorization to simplify internal communication.
 - Built the mail dashboard using React.js with reusable components, structured navigation, and responsive design for an efficient user experience..
- Gym Management Website** | *HTML, CSS, JavaScript, React.js* Dec' 24
- Developed a responsive gym website covering membership registration, trainer information, workout programs, fitness services, and membership plans.
 - Created interactive sections for schedules, contact forms, services, and membership details, providing users with easy access to essential gym information.
 - Built a modern and responsive interface using React.js, HTML, CSS, and JavaScript with reusable components and mobile-friendly layouts.

TRAINING

- Cipher Schools (Edtech Company)** Jan' 26 – Apr' 26
- Java Programming
- Completed Java programming training, gaining hands-on experience in core Java concepts including OOP, classes, objects, inheritance, polymorphism, abstraction, and encapsulation.
 - Developed and practiced Java-based applications using exception handling, collections, file handling, multithreading, and basic data structures to strengthen problem-solving and programming skills.
 - Worked with JDBC and MySQL to perform database connectivity and CRUD operations, applying Java concepts to build practical and database-driven applications.

CERTIFICATES

UI / UX Lovely Professional University	Aug' 26
Database Management System (DBMS) Infosys SpringBoard	July' 26
Object Oriented Programming (OOPS) Infosys SpringBoard	Sept' 25
Web Development Rising Tech Pro	Jan' 25

EDUCATION

Lovely Professional University Bachelor of Technology Computer Science and Engineering; CGPA: 7.29	Phagwara, Punjab Jul' 24 – Present
Tirumala Junior Kalasala Intermediate, Percentage: 83.5	Visakhapatnam, Andhra Pradesh Jul' 22 – Apr' 24
Sri Chaitanya E.M High School Percentage: 87.5	Visakhapatnam, Andhra Pradesh Jun' 17 – Apr' 22
